1 Preface:

These Release Notes cover what is new in the software release 2.11 and provide the download and installation instructions.

The software release is part of an ongoing process to extend the functionalities of the iLiad and to improve the overall performance to ensure an even better electronic reading experience for our customers.

The release notes of previous software versions can be found on the download section of our website:

<http://www.irextechnologies.com/downloads/docs>

2 What's new in the software release 2.11?

2.1 Definable startup behavior

- You can now start in the folder of your choosing or load the last read document on startup.

2.2 Stylus calibration

- Stylus can be calibrated from settings (developed with help of the community).

2.3 New Connection Manager

- Shows only WiFi profiles that are in the air.
- Automatic connection to WiFi profile.
- Single click new profile for new SSIDs.
- Shows wireless signal strength indicator.
- Add dial-up functionality for modem CF cards (GSM-data, CDMA).
- Allow more profiles, improved management of profiles.

2.4 Timezone Selection

- Timezone selection to set local time offset to GMT (iLiad clock is still synchronized with iDS).

2.5 Timed content download and device wakeup

- Let your iLiad connect to iDS at a set time, when iLiad switched off it will wake up. (Also option to let it power down after download)

2.6 Multi delete in contentlister

- Select up to 6 items and delete them in one go.

2.7 Generic CPU frequency scaling

- The CPU frequency is scaled down when the processor is idle. Saves about 10% battery life.

2.8 PDF viewer has forward/backward buttons

- Facilitating hyperlink usage in PDF documents

2.9 Select memory export to PC via USB

- Now you can select which memory to export to PC via USB (Internal, CF, MMC, USB).

2.10 Add Spanish language

2.11 Mobipocket now supports more HTML-based content

- This includes converted CHM files, which should now work better.

2.12 Share function can now either move or copy files from iLiad to PC (instead of only copy)

2.13 Settings application has Device Overview page with Wired/WiFi Mac address, version numbers, etc.

2.14 Device Manager shows free space on storage locations (Internal, CF, MMC, USB)

2.15 Show recent documents on mode button long press

3 How to download and install the latest release?

In order to benefit from this release and any future software releases you will need to create a user account to connect to

iDS. If you have an account, you can skip 3.1 and proceed to 3.2 “How to download and install the software release”.

3.1 How to create an account

- Go to <https://myirex.irexnet.com/user.php> and fill in your e-mail address.
- You will receive an automatic e-mail with a password in your e-mail inbox.
- Configure the *iLiad Settings* on your iLiad and insert your e-mail address and the password you received.
- You are now ready to connect to iDS.

(Note: Make sure that your iLiad is fully charged or connected to the power plug before starting the download).

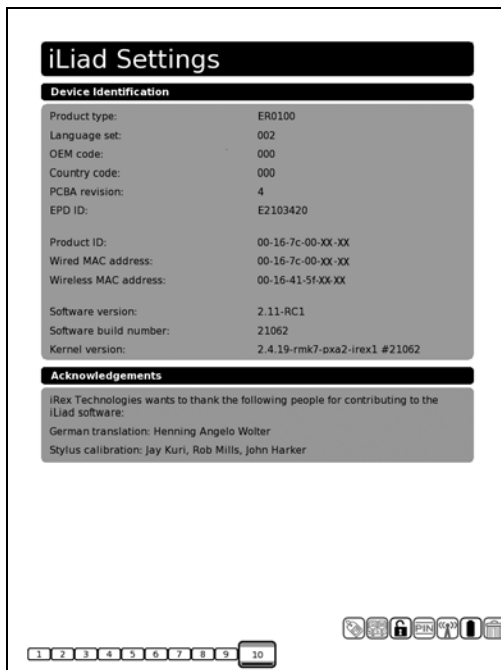

3.2 How to download and install the software release

- Connect to the iDS by pressing the connect key of your iLiad for 2 seconds.
- You will be presented with the iLiad network profiles screen. Select to connect to iDS (using your stylus).
- After connecting to the server you will get a message: **Downloading Software Upgrade v2.11** and the progress of the download.
- When the download is complete the iLiad will install the update and restart itself.

Caution: Please make sure the iLiad is NOT **reset** while the new software is being installed. If the installation is interrupted at this stage, the iLiad may be programmed with incomplete software, rendering it unusable.

- The iLiad will automatically reconnect to the iDS and will download updated documents related to this release and may download an additi.
- When this download is complete you will return to the *Download History* and you can continue to work with your iLiad.

- You can verify the software version and identify the language set in the iLiad Settings menu.
 - ER0100/002 for Latin countries
 - ER0100/010 for the Chinese market

4 Technical Support

If you experience problems with the installation please contact our Tech Support centre.
